

## MY CUSTOM STITCH

Teacher Valerie Wilhite - Class Time 1 1/2 Hours

This class allows you to design your own stitches. It is only available to owners of Brother Machines that have this built in feature. You will learn how to create either decorative or utility stitches that will add to your machines capabilities. If there is a stitch you wish your machine had, with this class you can create it using the ideas and techniques in this class.

I recommend the book "My custom Stitch" published by Brother and is available at Ryan's.

Cost - \$15.00

A Minimum of 2 Students is required for this Class

Saturday, January 16, 2:30-4 p.m.
